

Failure of an Insurance Company.

The Baltic Fire Insurance Company, which failed last year before yesterday, began business in 1864 with a capital stock of \$200,000, and from the start...

The August Eclipse.

The Riverside Magazine for August has for a leading illustration a tinted representation of the appearance of the earth and sky at the time of the total obscuration of the sun in the eclipse of August 7th.

For the convenience of such of our readers as live within the belt of country referred to on the fourth page of this number, where will be witnessed on the 7th instant the total eclipse of the sun...

1. When the sun is more than three-fourths hidden by the dark disk of the moon a perpendicular shadow will be cast on the landscape around. Soon after, the sky appears to descend; the horizon to contract; the temperature of the air falls; birds cease their singing; flowers close; an unearthly greenish and red light is imparted to portions of the sky...

2. Immediately before the last trace of the sun's disk disappears, the awful shadow of the moon in the air may be detected rapidly approaching from the west like a dark column or a smoky cloud. To witness this important spectacle, care must be exercised in the excitement of the moment the swiftly approaching shadow be unheeded.

3. The last thread of light from the sun's disk sometimes appears to separate into little grains or beads before its total disappearance. This phenomenon has been called the name of "Baily's Beads," from the noted astronomer who first witnessed it.

4. Instantly on the extinction of the sun will be seen the grandest feature of the eclipse, the corona, or crown of light, issuing on all sides from the moon. They too, belong to the sun, and are demonstrated by the spectroscopic to be incandescent hydrogen. With every eclipse they vary in size, number, shape, position and depth of color.

5. In the corona, and issuing also apparently from the dark moon, there will appear several rose-colored flames projecting beyond the gloomy disk, perhaps a tenth of the diameter of the moon. They too, belong to the sun, and are demonstrated by the spectroscopic to be incandescent hydrogen.

6. Planets and large stars are often noted during totality of the moon. They will be seen to stand in positions on a celestial map. As the darkness hardens they extend that of a moonlight night, they are not always readily found in the two or three minutes of gloom that attend the entire obscuration of the sun.

When the moon reappears the phenomenon of Baily's Beads should be again looked for—this time on the right side of the moon's disk. The moon will sail rapidly away in the air to the eastward. Then follow the changes of color in the sky and landscape, the rising of the thermometer, and a general awakening of Nature, and the wonderful exhibition is over.

General Grant a Radical. WASHINGTON, July 30.—Among the visitors at the White House to-day was a gentleman who, in conversation with the President, broached the subject of politics in Mississippi and the Dent movement in that State.

How to Observe the Eclipse and Save Your Eyes. Take a large card with a small round hole in the center, and with the sun's rays, so that the shadow will fall on the floor, pavement, wall, or other dark and smooth surface.

STATE NEWS

A FORMER CITIZEN DEAD.—Judge Wm. B. Sloan died in Vicksburg, Miss., on the 26th ult. He was a native of New Jersey, but resided many years in North Carolina, before his removal to Mississippi in 1838.

EMIGRANTS COMING.—Several gentlemen from the North have been in this city, by invitation of the N. C. Land Company, and visiting different parts of the State for the past week, with a view to taking observations and locating lands for emigrants.

Ten shares (\$1,000) of the stock of the North Carolina Real and Personal Estate Agency, commonly called the Lottery, was sold at auction to-day, by W. H. Jones & Co., Auction and Commission Merchants, for the sum of \$340.

HON. ASA BIGGS.—By advertisement in the Tarboro' Southerner, we observe that the Hon. Asa Biggs, of North Carolina, offers his valuable property for sale, preparatory to his removal to Norfolk.

Mr. Noah says that some time ago Mr. Stokes was offered the U. S. Senatorship if he would withdraw from the gubernatorial contest, but he declined, and to this is attributed the present disorganized state of affairs.

Mr. T. A. Granger made the first shipment of new grapes yesterday morning. A young gentleman named Joseph White, a very respectable, industrious, quiet, good-looking fellow, of about eighteen years of age, and a resident of Germania, went to South Nashville Saturday night to visit his lady-love, a Miss Barnes.

THE CALIFORNIA FLYING MACHINE. The San Francisco Bulletin of July 21 describes a trial of the "Aviator" in the Industrial Pavilion. Some modification had been made in its construction since former trials.

THE MARRIAGE RING. ESSAYS ON THE ETHICS OF YOUTH, AND THE COLLAPSE OF ADULTS, IN REGARD TO SOCIAL EVILS, WITH COINCIDENTS OF THE MARRIAGE AND UNFORTUNATE. Sent in sealed letter envelopes, free of charge. Address, HOWARD ASSOCIATION, Box P., Philadelphia, Pa.

Special Dispatch to the Baltimore Sun. Politics in Tennessee.

Probable Result of the Campaign.—Effect of Secretary Boutwell's Letter.—Ex-President Johnson's Chances for the Senate.

WASHINGTON, August 1.—Ex-Supervisor Noah, of Tennessee, who is now here, brings some additional information in relation to the campaign in that State. His opinion is that Senter will be elected by from 20,000 to 40,000 majority, and although the Legislature will be Democratic or conservative, he does not think the State is wholly lost to the republican party.

The fight for the Senatorship will be very lively, but it is as yet impossible to guess at the result. Mr. Noah does not think it probable that a republican will be elected; he is certain that ex-President Andrew Johnson has no chance. His greatest opposition comes from Neil S. Brown and the old line whigs. Emerson Etheridge, who will be elected to the State Senate, will also be a candidate for the United States Senate, but the republicans will hold the balance of power.

A Sad Accident. A Whole Family Drowned Except Two Small Children. New York, July 31.—About dusk last evening, a whole family, consisting of a man and his wife, two daughters about 15 and 17 years of age, and two little children were observed rowing up the North river in a small boat.

Major White, said to be from Tennessee, killed the wife of Dr. Alvin H. Hobbs in this city to-day in the presence of her husband and child. White has been arrested.

Alabama Election. Election news is meagre so far as Alabama is concerned. The vote is much less than last year. The probabilities are in favor of the election of Parkison, Democrat, in the Third District by a handsome majority. The contest between Woolly, Democrat, and Buckley, Republican, in the Second District will be much closer than was expected, and the latter's friends are fearful of his defeat on account of the great falling off in the negro vote.

Man's majority in Mobile county so far as heard from reaches 1,400 several precincts to hear from. The county will probably give 1,800 for Mann. At the Court House, in Baldwin county, a negro radical mob took possession of the polls, and beat one white man badly, and prevented democratic negroes from voting and were very riotous. The Sheriff could not control them. That precinct gives Buckley a majority of 202.

From Washington. WASHINGTON, D. C., Aug. 4.—P. M. The receipts of internal revenue to-day reach \$71,000.

From California. SAN FRANCISCO, Aug. 4.—P. M. It is stated that twelve millions of dollars in gold coin has been locked up in the office of the Assistant Treasurer for some time past, causing great injury to the business community.

From Missouri. ST. LOUIS, Aug. 4.—P. M. The Marine and Fire Insurance Company of Peoria, Ill., has suspended.

From Illinois. CHICAGO, Aug. 4.—P. M. The government will shortly call out the reserves.

From New York. NEW YORK, Aug. 4.—P. M. Stocks steady. Money steady at 6 1/2 per cent. Premium Sterling Exchange 104 1/2. One-hundredths of '62, 125. Ten-tenths, registered, 111. Coupons 111. North Carolina Sixes 57; new 51. Virginia Sixes, ex-coupons, 61; new 55 1/2.

From the Canadian State. Montreal News says: "We understand, on good authority, that a secret effort has lately been made on the part of certain Fenian leaders to inaugurate a 'rank and file' of that organization to again venture upon a raid into Canada. A portion of them were to have been first sent into the country by twos and threes, and meeting by appointment at a certain rendezvous, they were to march into Ontario, to try and do a little in the way of incendiarism and assassination, while a formidable armed force crossed the border. The whole plan, we are informed, was made known to Mr. Thornton, who at once communicated with the Dominion authorities. We do not believe there is much ground for anticipating another Fenian raid, but it is gratifying to know that the plans of these miscreants are known to our government almost as soon as they are laid."

Game of Chance in Chicago. The gambling houses of Chicago are said to clear an average of \$3,000,000 a year in faro alone. No reference or estimate has been attempted of the amounts won and lost at other styles of playing, and note been taken of the sums squandered at private games. The city of Chicago is said to be a leading or combination houses, four for each medium establishment, those that for justice are called "thief" houses, and the remainder are called ten cent games. Each principal gaming house supports, irrespective of the proprietors, about twenty-five employees. The garden city progresses.

It is said that truth is mighty and will prevail. With not a few it's mighty scarce and is a long time, if ever, in prevailing.

The Knoxville Whig says it estimates that the wheat crop of Tennessee, if fully harvested, would make 100,000 barrels of wheat, worth about \$3,000,000.

The way to make them jump is to lead barrel staves to their legs for fetters. The fetters scare them, and they jump to get away from them. Sheep are troubled with wool growing all over them, and they get hot weather they cut it off to keep them cool. I suppose they would have cut it off at any rate to get at the mutton. They spin up the wool into stockings upon Lamb's knitting machine, though sometimes the grandmothers knit them with needles, which I think is the best way, because it keeps them quiet, and they won't bother as boys so much. When sheep jump and run one always follows the rest. I mean the rest all follow one. If the leader should jump through a keyhole, or over the moon, the rest would follow, which I think is very bright in the sheep and in other folks who always follow the leader; of course the leader is always right. Lamb's are kept very tame, which I should not think the rest all follow one. If the leader should jump through a keyhole, or over the moon, the rest would follow, which I think is very bright in the sheep and in other folks who always follow the leader; of course the leader is always right. Lamb's are kept very tame, which I should not think the rest all follow one. If the leader should jump through a keyhole, or over the moon, the rest would follow, which I think is very bright in the sheep and in other folks who always follow the leader; of course the leader is always right. Lamb's are kept very tame, which I should not think the rest all follow one. If the leader should jump through a keyhole, or over the moon, the rest would follow, which I think is very bright in the sheep and in other folks who always follow the leader; of course the leader is always right. Lamb's are kept very tame, which I should not think the rest all follow one. If the leader should jump through a keyhole, or over the moon, the rest would follow, which I think is very bright in the sheep and in other folks who always follow the leader; of course the leader is always right. Lamb's are kept very tame, which I should not think the rest all follow one.
